Independent Consultant, Vaughan, ON   **Jan 2023 - Present**
Web Developer

- I have worked upon freelancing projects and have implemented my skills i.e., Frontend and Backend, to fulfill all the needs of the client.
- There are some key skills which I always implement while developing a website that are: -
    - Responsive design skills
    - Analytical skills
    - Research skills
    - Testing and debugging
    - Search engine optimization (SEO) skills
- I have also worked upon website security as it is a major part of the website. So, I execute manual and automation tests to see if there is any vulnerability on the website or not.

Xccelerata, Mississauga, ON   **May 2022 - August 2022**
Software Specialist

- Acquired knowledge of handling techniques for software technologies.
- Used JavaScript, SQL, and HTML to develop app-solutions.
- Maintained complex technology infrastructure and collaborated with product team to implement new features and strategically plan for future products.
- Developed efficient and maintainable software according to business objectives and needs of clients.
- Consulted with engineering team members to determine system loads and develop improvement plans.
